Welcome to Kulin Garrick!

CEO CORNER

It is with great interest and anticipation that I join the Shire of Kulin and wider Kulin community. From afar I have noted the immense spirit and pride amongst the community to make this a prosperous and driven town. I look forward to becoming part of such a great community, which I understand has one of the highest rates of volunteerism in the country.

A little bit about me, I grew up on a farm in the Wheatbelt (Narembeen – please don't hold that against me). My professional background is in engineering and project management. Recently I have been Executive Manager Infrastructure for the Shire of Dandaragan where I oversaw the delivery of a suite of community infrastructure projects in a growing coastal community, as well as the delivery of over \$2M of annual roadworks. I have recently coordinated a region wide project aiming to upgrade 4,000km of local government roads across 42 wheatbelt shires, fingers crossed there will be a funding announcement on this soon.

Those that know me, know I'm passionate about my sports. I look forward to getting involved in the local sporting clubs. I'm a keen cricketer and have a passion for coaching budding young cricketers, which I hear there are a few in Kulin. I have a 3 year old son, Maverick, who I'm sure will love to get to know some fellow youngsters around town.

In the short 2 weeks that I have been here, I have noticed what a strong and passionate team of staff we have at the Shire. They are proud to call Kulin home and have welcomed me with open arms. It is great to see some long time locals on staff who clearly show why Kulin is such a vibrant and successful community.

I look forward to meeting as many local businesses and community members as possible in the early weeks and becoming involved in such a passionate community.

What is WIFE?

The roles of women on farms are significant and varied. Professional support and training to fulfill all of these roles is often unavailable, because courses, can't usually offer what is required, or it is unattainable due to the distance and time needed to attend. This is where WIFE steps up.

WIFE's essence is to tap into the wealth of knowledge that is your neighbor, your friend, your friends friend, the lady up the road, the new girl in town or the wing attack on your local netball team and if the expert required isn't available locally they simply truck them in!

There is great benefit in discussing issues between local ladies, to help each other improve and excel in the many tasks we all take on within our farming enterprises. Meetings would often be in the form of organised discussions between local members. There would also be chances to run workshops and events with guest speakers or experts, if topics of interest are identified by the group.

Any queries or if you are interested but can't attend, call Janelle South 0410 233 903

Bushfires and Water Supply – this information could save your life

Do you live in or near a bushfire prone area?

Then now is the time to check that you are prepared in the event of a fire.

Water Corporation would also like to remind you that if you plan to stay and defend your home you must have an **INDEPENDENT** water supply and pumping capability. Scheme water may not be available due to damaged infrastructure, extreme demand depleting supply and pressure, or a cut to power which is used to pump water.

We have made our own preparations for the 2018/19 bushfire season by readying equipment and systems to cope with extreme conditions. Despite these efforts, it is likely there will be a reduction in water pressure, and scheme water supply tanks may run empty in the event of fire.

The multi-hazard [Emergency WA website](#) will give you better access to emergency information and community safety warnings.
