I was brought up on our family farm, 30kms north-west of Kulin. After finishing at Kondinin Primary School and completing high school at Scotch College I graduated at Curtin University with a Bachelor of Business in Agriculture. I am fortunate to have been brought up in a small community and now living and working in Kulin, I would like to give back. At the age of 39 I help manage our family farm, proprietor of an agronomy consulting business, father to Lyla, Willow and Flynn and husband to Rynelle.

I have been a part of the Kulin Football Club committee and in more recent years, a director for Kulin Community Bank and Chairperson of Cultivating Kulin Committee. I am passionate about the community projects we currently have and am eager to promote our town further. If elected, I'd like to contribute to our town through the shire council for the benefit of our current and future generations.
