# SHIRE WORKS NOTES

Works on the Fence Road are continuing with Western Stabilisers in to cement stabilise the floodways prior to Bitutek completing the sealing of 5.5kms last week. We are continuing to prepare the remaining 5.5kms for wet mixing from Monday 27th February and sealing to be completed on 20th March.

Works have started on Muller Road to re-construct the corner at the intersection of Kay Road and delays are expected with a lane closure to allow works to be completed at various stages. This will also be sealed at the same time as Fence Road.

You will notice that there has been some action on footpaths around the school, this will continue to progress over time and will have asphalt laid in the coming months when contractors are in the area. There are also several pram/access ramps to be installed and that will also happen in due time as contractors are available.

Kulin-Holt Rock Road construction works have commenced at the intersection of Allen Rocks Road, with Key Civil completing the culvert installation in the coming days before the works crew move out there to complete the 3km section that should be set in early May. Works will continue heading

towards the west in preparation for more bitumen later this year.

Denaro Nominees have been busy working on enlarging the dam located on the corner of Allen Rocks Road and Kulin-Holt Rock Road as a Strategic Community Water Source that has been funded by the Department of Water and Environmental Regulation. There will be a tank and pump installed in the coming weeks for the community to access.

Works Manager

## AUSTRALIA DAY AT THE POOL 2023

The day began early getting things ready for Australia Day at the pool. We were expecting big numbers and weren't disappointed. The numbers were slow to start coming through the gate and Jamie (on the front gate) and I were looking at each other thinking that the day wasn't going to be what we expected, however by about midday they started rolling in, with 180 plus through the gate on the day, and by the looks everyone seemed to be enjoying themselves.

The slide was pumping again and lots of kids, and bigger kids enjoying the ride. We had the Bungee Bounce trampoline return this year which was a hit again with all the kids, so Eloise was kept busy with the other staff member from Airborne Amusements all day, with Stella jumping in to give them both a well-earned break throughout the day. It was quite warm out there!

Edona Heartland started at 2pm and the crowd were sitting back relaxing and listening to these two ladies do their stuff. Lots of people commented on how amazing they were. Thank you, Ed and Fiona, for a great afternoon.

Big thanks to Vickie and Bridie

for manning the slide for most of the day with Shauna stepping in to give them a break when needed as well. The comments that come back from travelers about you guys on the slide, and how friendly and welcoming the staff were to anyone who came to the pool. Jamie at the front gate had his hands full and was busy most of the day, but a job well done.

A few families came through this season who had heard about the slide and its origins. They made the trip out here after spending time at the water park where the slide originally came from, so it was nice to hear their memories. It is so nice seeing familiar faces each year, and some families making the trip from Bunbury, Perth, Mandurah and other towns for the last 3 years for the Australia Day event.

Big thank you to Jamie who has been with us for 2 seasons now and manning the front gate on busy slide days. All the best for your travels ahead and say g'day to Luisa when you finally catch up with her.

With school back again, swimming club training, and carnivals coming up, the more laps you do, the better prepared you will be, so keep up the work.

Swim to Rotto is ticking along still with regular numbers coming through the gate each morning. Everyone is back from holidays and looking to get a bit fitter before the end of the season. So far as a town, this season we have swum 13,695 laps in total, which is around 342 km between 40 of us. This with previous years totals combined gets us from Kulin to halfway between Fitzroy Crossing and Halls Creek. Some efforts that need to be mentioned are below:

Grantly 1540 laps - 38.5km  
Annie 1364 laps - 34km  
Clint 1090 laps - 27km  
Elizabeth 1060 laps - 26.5km  
Myself 1000 laps - 25km  
Jennie 804 laps - 20km  
Jackie 770 laps - 19km

There are plenty more putting in the effort. Keep up the work and let's see how far around the country we can get.

Triathlon coming up mid-March so get yourself or your team organised and make sure to enroll!

Entry forms and more details are on page 19.

Cheers, Jones

# SENIORS' MORNING TEA

The Seniors' Morning Tea was held at the Kulin CRC on February 6th 2023 and was a massive success!

We had a fabulous turnout, with almost 30 people in attendance. After a little catch up, and of course, a morning tea, our Shire staff Fiona, Annie, and Belle talked to everyone about current projects, and ones to come. This was followed by feedback from those in attendance about what they would like to see in our community, and ways we can help them.

This chat was extremely valuable to us, and we learnt a lot about all the ways we can help the seniors in our community. Having this input means we at the Shire can work with fresh ideas and input, and can navigate potential solutions to issues members of our community may have.

Something raised at our morning tea was the distribution of information from the CRC/Shire. To

help accomodate a wider range of people, we will trial producing a newsletter once a month that will be sent out to our seniors directly. This newsletter will contain events, notices, works, and upcoming projects, with the intention that this concise and clear format will make it super easy for anyone that reads to gain an understanding to everything happening currently.

The usage of direct mailing also eliminates someone missing information through not getting an Update, not being on social media, or the information just slipping through the cracks!

We loved having all our treasured seniors at the CRC, and are excited for more morning teas to come!

Saturday 18th February was an absolute scorcher down at the VDZ! Thank you to everybody who came down to our Community Sundowner. It was a great afternoon, which got a whole lot better when the sun started to set!

The afternoon was filled with live music with the talented Simon from “Verzhen Contol” performing, his instrumental skills were FAB, and the singing was definitely unforgettable!

It was such an amazing sight to have so many of our locals, and even a few tourists down at the event, we have such an amazing community, and it is really something to be proud of. We hope to plan more community events for the future, so if you have any ideas of things you'd like to see, feel free to let us know.

# COMMUNITY SUPERSTARS

## Welcome Sergeant Andy Dunn to the Kulin community as the latest member of the Kulin Police Force.

I had the pleasure of sitting down with Andy and getting some background on him, his family, and his career, hope you enjoy!

Sergeant Andy Dunn is Kulin's newest police sergeant, officially moving to Kulin on the 2nd of February, and starting in our force on the 6th of February.

Andy mentioned that his favourite thing about Kulin has to be how nice the people are, and in regards to the general close engagement of the community he remarked, "that stands out, believe it or not. Larger communities are less personable."

Andy has been on the job for about 37 years, and has done an array of operational positions. From being a general Officer, to a Traffic Officer, Detective, Officer In Charge at 4 stations, and now Sergeant. Andy was a Detective for 10 years, and recalled fondly of his achievements from his early years in the role.

Sergeant Dunn mentioned that in his line of work, highlights come in the little things, day to day, week to week, if the community is happy, then that's an achievement, and that's what he regards as the highlights of his career. In police work it's hard to ignore the fact that you see the worst in people, but it was during the most difficult of times, during the emergencies, and the ugly moments, that Andy affirms this is also when you see the best in people.

In his years of work, Sergeant Dunn has been involved in major fraud and murder cases, and in an abundance of long, complex, and drawn-out investigations. He commented that it's in moments like these when you become

completely invested in achieving the right outcome, and doing what is best for the community.

Andy grew up in Perth and spent his entire schooling years there too. After finishing school, he ended up completing an Advanced Diploma in Business, as well as a Diploma in Criminal Investigation. Andy has 5 brothers, all of which have served in the Police, Air Force, Navy, or Army, including one who has worked for both the Air Force and Police Force. Andy always wanted to be a member of the Police Force, ever since he was a child, and his dream became a reality, as he served 12 years working with City Police, then moving to regional WA, where he has done the rest of his years. His wife has stuck by his side the whole time, and when asked about his greatest accomplishments, his happy wife (and, therefore, happy life), his 3 kids all on the straight and narrow, and his detective work, were quick to be mentioned.

Sergeant Dunn commented that what made him happiest was when other people were happy, he enjoys meeting new people, travelling, and most importantly, going home without getting smacked by his boss. Don't we all! While Andy has made explorations to Singapore, Phuket, and the USA, his focus is our home country, Australia, with visits to Darwin, Gibb River Road, Cook Town, Tasmania, and many places in between. Andy has travelled all over, however, his plan is to stay in regional WA for as long as he continues working, as that's where he feels the most happy and in place. He says that it is his experiences that allow him

to bring a very even approach to policing, and reach community expectations.

I asked Andy the same 2 final questions I asked my last amazing interviewee- Gen.

1. What advice would you give your teenage self?

Andy's response was something pretty relevant to me, as I'm sure it will be to many other people. "In this country, you can be whatever you want to be, if you want it bad enough, work towards it, because you will achieve it."

2. How do you think you make the world a better place?

"Probably because I'm here to help and listen, not because it's my job, it's because I want to."

Of course, before I wrapped up the interview, I had to ask the big question, the one everyone wants to know. Has Sergeant Andy Dunn tasered anybody? He provided me a very diplomatic answer, "yes, once. However, the pen is mightier than the sword, and you can generally get around it."

I'd like to thank Sergeant Dunn for taking the time to talk to me, and taking time away from fighting the rampant criminals that line our pristine streets.

Hope you enjoyed!

Belle Brandis  
Community Development Officer

## Kulin Police

21 Johnston Street, Kulin WA 6365  
Phone: 98615800  
Email: [Kulin.Police.Station@police.wa.gov.au](mailto:Kulin.Police.Station@police.wa.gov.au)  
Staff: Sergeant Andy Dunn, Senior Constable Barry Osborne (Uncle Baz)

Hello everyone and welcome to your local Police news article. These articles are something I'll try to create monthly for community information, updates, quips and general news keeping you informed about your town where possible. My name is Andy Dunn, and I hope to be a welcome and useful addition in your community.

About me... the new  
Sheriff in town...

Well, they just call us all coppers in this country...and this copper started in Kulin January this year replacing Sergeant Dave BALL who served for around 4 years in the sub-district. Dave took up a new position in the city and I wish him all the best for the future.

As for me, I've served with WA Police for around 37 years now. Starting back in 1986 when mobile cordless talking devices were science fiction in movies like Star Wars and computers were only something NASA needed. Anyway, 37 years later I have lost some hair that is true probably while serving in various sections across Perth before heading to the country in 1999...and I have never looked back, although it made no difference to my hair.

Previously across Regional WA, I've served as the OIC at Kojonup, Denmark and Ongerup (when they had a cop shop) with a combined 13 years all up. I've also served at Albany, Carnarvon and Wagin relieving at other spots such as Narrogin and Katanning. My wife Sharon and 3 kids have been by my side the whole time and while the kids have now all flown the coop, the wife must love packing and

unpacking boxes because she's still with me and enjoying the Kulin life-style. (they already know her at the pub)

So, painting the picture, I've been around and know the Great Southern well. You'd be correct in assuming I like the place and having been around Kulin for about a month now, I'd put it out there and say it's a bit of a well-kept secret...lovely town and lovely people.

Thank you to all the warm welcomes so far and I look forward to working with individuals, groups and the agencies across the community who serve the community to keep it safe and ticking along.

I'd also just like to say thanks to Uncle Baz, who most of you will know as the 'other' copper in town, for his assistance in making my move inward smooth as possible. Thank Baz.

Also, the many I've met at the Kulin Shire who have assisted both Sharon and I in making our new home a great place to live. Thank you.

THE GOOD, THE BAD, THE UGLY

THE GOOD...first impressions fantastic. Great town.

THE BAD...well, we are the coppers of course. We have a job to do and a role to play in keeping this place safe. We don't always like what we have to do either but we are duty bound at the end of the day to enforce the laws across the state, and we will.

I don't believe there is a need to outline to anyone any law in detail because they are mostly just plain common sense, especially traffic laws, for example:

- \* Don't speed you don't get an infringement,
- \* Don't drive without a valid licence you won't get arrested,
- \* Don't drink and drive and you may just save your own life or someone else's but ...
- \* If you do DD and get caught, you WILL lose your licence, a lot of money in fines, possibly your job and the respect of many. There is no discretion in this regard and none will be given. The biggest message I have for anyone who thinks they may take the risk – DON'T.

THE UGLY – Crime

We live in a fortunate location, relatively crime free most of the time but some people just have no regard for the property or safety of others and they do live amongst us...or at least sweep in and out from other locations from time to time.

On that note, I will keep you informed of crime issues of relevance. I know the community likes to be kept informed and I will share with you what I can.

Town Fire – December 2022

The gentleman involved in burning down a shed in town and a bush fire near the school was arrested on the night, charged, and has been in custody ever since. His next court appearance is the 21st of February. I have no further info at this time however the charges proffered can carry long terms of imprisonment if convicted. It's in the hands of the Justice System now so watch this space for updates.

## FIREARMS BUY BACK SCHEME 2023

On 14 February 2023 the Minister for Police announced impending changes to the Firearms Regulations 1974. These changes will prohibit a number of firearms and ammunition, which could be licensed in WA. The changes will come into effect on 01 July 2023.

These changes mean that by 01 July 2023 existing Firearm Licence holders currently in possession of the affected firearms and ammunition must either:

1. Dispose of the firearms and ammunition by legitimate sale via a WA Firearms Dealer to a location outside of WA; or

2. Surrender the firearms and ammunition to a WA Police Station and provide the required supporting documentation to be eligible for a buyback payment.

## INVISIBLE INK WITH LEMON JUICE

Write secret messages to your friends and family and then let them decode it with any source of heat - like a candle or an incandescent light bulb!

<https://www.kiwico.com/diy/stem/quick-easy-experiments/invisible-ink-with-lemon-juice>

Learn more about magnifying glass graphic  
Lemon juice is mostly made of a variety of sugars, acids, and water. Normally, lemon juice is mostly clear, so when you dilute it even further in water, and paint that mixture onto some paper, you can't see it. However, heating up lemon juice causes some of its sugars to react with oxygen in the air (oxidation), which turns these sugars brown. Acids in the lemon juice can also react with fibers in the paper to make more sugars, which again turn brown in the heat. Your invisible ink might seem like magic, but really, it's all just chemistry.

## Aries

Read Aries Horoscope 2023 & know what your future beholds. Aries Horoscope 2023 states that at the beginning of the year Mars, the ruler of your zodiac, will be present in retrograde motion in your second house, which is ruled by Taurus. During this time, you will become financially strong and will spare no effort to improve your financial situation. However, you need to control your speech and your actions or you risk adding to the tension in your own relationship. Till April 22, Jupiter will be present in your twelfth house and become a reason for the increment in your expenses; however, it will also keep your participation active in spiritual and religious activities. Aries students can pursue higher education abroad, and they'll be successful.

## Taurus

Know your Taurus Horoscope 2023 from renowned astrologers. Taurus Horoscope 2023 predicts that you'll probably experience average success. At the beginning of the month, i.e. on 17 January 2023, Saturn will move out from the ninth house and enter the tenth house and will result in bringing stability in your professional life. However, this year will require a lot of work from you in terms of your career. It will be a year full of challenges, but your efforts will be rewarded with great successes. In the middle of this year, you could also have the opportunity to travel abroad and will need to make longer business trips.

## Gemini

How will 2023 be for you? Find now through Gemini Horoscope 2023. Gemini Horoscope 2023 predicts that the beginning of this year could be difficult for you both physically and financially. This is because Saturn will be conjunct Venus in your eighth house, and Mars will be retrograde in your twelfth house at the start of the year but this will be the year when your troubles get fixed. Because Saturn will leave your eighth home and enter your ninth house on January 17, strengthening your fortune and bringing an end to your Dahiya, obstacles will be removed from your path, and you will experience less health issues and financial contact.

## Cancer

Cancer Horoscope 2023 is bringing many benefits for your zodiac sign! Cancer Horoscope 2023 predicts that at the beginning of this year, the benefactor of Yogas of your zodiac, i.e. Mars, will be present in your eleventh house in a retrograde state and give you impeccable financial status. You will continue to put in more effort to earn a good sum of money, and you will succeed in doing so.

## Leo

Find out what Leo Horoscope 2023 has in store for you! Leo natives should expect a mixed bag of outcomes from this year, according to their Leo horoscope for 2023. The beginning of the year might not be very favorable, however, as the year begins to progress, the natives will start to attain positive results. Saturn is residing in your sixth house at the start of the year and will form Shatru Hanta Yoga, which will help you become strong and not let your enemies defeat you. However, Jupiter's presence in the eighth house will make you strong religiously while also causing financial issues. Your zodiac lord the Sun, who is in the fifth house at the start of the year will also ensure that you have excellent financial status and that you are able to make significant academic advancements.

## Virgo

Virgo Horoscope 2023 foretells that Mars will be transiting in your ninth house in a retro motion in the month of January. As a result, you may experience some unexpectedly positive outcomes. These outcomes will make you believe in your good fate. Saturn will intensify romantic relationships by being present with Venus in the fifth house at the beginning of the year, and will create a positive atmosphere by moving into your sixth house on January 17.

Love relationships will be put to the test during this time; if you stay faithful to your partner, your bond will become stronger; otherwise there is a risk that it will break apart. Child-related problems might bother you but your financial condition will improve at this time.

## Scorpio

Kick start the year with Scorpio Horoscope 2023! Scorpio 2023 horoscope indicates that the new year will be a fortunate one for those born under the sign of the Scorpio and there will be an increase in courage in the natives. ## Capricorn

Capricorn Horoscope 2023 has numerous surprises for your zodiac sign! Capricorn horoscope for 2023 claims that the year 2023 may prove to be a year that brings the best results for Capricorn people. At the beginning of the year, the ruling lord of your zodiac, Saturn, will remain in your zodiac sign and make you courageous and bring success to you. Then Saturn will move to your second house and bless you with good financial status. Your family will expand, you'll gain financially, you'll profit from the purchase and selling of property, and you'll also succeed in purchasing a piece of land or constructing a home.

## Pisces

Read Pisces Horoscope 2023 and plan your year ahead of everyone else! The beginning of the year will be very favorable because your zodiac lord Jupiter will stay in your own zodiac and protect you from every problem. However, the year 2023 could prove to be equal parts ups and downs for Pisces people. It will give you the ability to make decisions and you'll use your knowledge to solve many significant problems.

Jupiter, the ruler of the zodiac, will enter the second house on April 22 and unite with Rahu. Between May and August you will particularly experience the effects of Guru Chandal Dosha, which could cause an increase in health-related issues, some tension in your family, and a significant increase in family disputes.

## Improve Your Yield. Grow Your Own Nitrogen. That's What ALOSCA Technologies Offer.

**ALOSCA Technologies** is an industry leader in Rhizobia inoculants for legumes supplied in a unique patented granule. Alosca granules are the only inoculant that can be reliably used for dry sowing, top dressing or applied in contact with seed dressings or fertilisers that would otherwise be harmful to Rhizobia bacteria.

### **Ideal For Summer Sowing and Early Seeding Programs**

ALOSCA granules provide flexibility like no other inoculant. Legumes can be sown with ALOSCA granules in dry conditions and remain in the soil for months until being activated by the same seasonal rain that germinates the crop.

### **Carryover Nitrogen Benefits From Legumes**

Ensuring that your legumes produce the most nodules via inoculation is critical to maximizing nitrogen fixation in soils. Recent work by GRDC has shown legumes that reliably boost soil nitrogen are an answer to both higher nitrogen prices and low grain protein over following seasons.

Locally developed for Australian soils and conditions.

Can be dry sown, simple to apply and can be easily blended with fertilisers, seed or applied by a third box.

Can be used with seed dressings that are typically harmful to inoculants

Can be stored for months in a dry area

No need for slurries

Better legume inoculation solutions for modern farming

**ORDER EARLY TO GUARANTEE SUPPLY.**
